THE NAMING ZONE™

MARKING YOUR BUSINESS

In overcrowded markets with narrower segments, brand names play a crucial role. Your brand name is a powerful source of identity. It helps to project the intended image of your product or service against the competition and it is key in the process of positioning a brand in the minds of your target audience.

At BM+O we provide the insight and guidance to streamline the naming process. By partnering with you, we identify your goals and objectives, and translate these ideas into a cohesive brand name that accomplishes your needs. We also provide assistance in the creation of your slogan, as well as visual and contextual support to help you envision your brand.

WTR:

“This firm has done an excellent job finding its groove in the past year following a storm of merger and recruitment activity and a significant rebrand in late 2017. A deep bench of senior specialists is one of the defining features of the organisation, which has seven individuals listed in the WTR 1000 – more than any of its competitors.”

IP STARS:

“Berton Moreno + Ojam was selected as MIP's Latin America Firm to Watch in 2018 and since that time, has continued to see growth in prosecution, enforcement, and contentious matters.
